CAREER OBJECTIVE

Motivated Electronics and Communication Engineering student (CGPA: 8.1/10) with hands-on experience across embedded systems, IoT, robotics, UI/UX design, and AI/ML. Proven track record at ISRO and leading technology companies. Skilled in Python, Java, Arduino, ESP32 and PCB design. Best Student Award recipient in two consecutive academic years. Seeking a challenging engineering role to apply technical expertise and drive innovation.

EDUCATION

Bachelor of Engineering (B.E.) in Electronics and Communication Engineering

Amrita College of Engineering and Technology, Nagercoil.

Graduation: May 2026 | **CGPA : 8.1**

SKILLS

- **Programming:** Python (OOP concepts), Linux,
- **Web:** Basics of HTML & CSS
- **Database:** MySQL
- **Specializations:** Software Testing, DevOps, Data science, AI & ML, Embedded Systems & IoT, UI/UX Designing, Robotics, PCB Design, Arduino Programming.

INTERNSHIP EXPERIENCE

ISRO Propulsion Complex (IPRC), Mahendragiri	June 2025
• An experience at IPRC offers a unique blend of technical immersion, hands-on testing exposure, and professional mentorship.	
Tech Volt Software, Coimbatore (UI/UX Designing)	July 2025
• Designed user interfaces for web/mobile applications. Prototyped UI/UX using Figma and Adobe XD. Ensured user-centric, accessible design solutions.	
Emglitz Technologies, Nagercoil (Robotics)	January 2025
• Assisted in robotics system assembly and programming. Developed automation modules for control systems. Worked on sensor data integration in robotics projects.	
Keltron, Thiruvananthapuram (Embedded Systems & PCB Design)	March 2024
• Programmed microcontrollers for embedded applications. Designed and tested PCBs, sensor modules. Applied PCB design tools and VLSI basics in industrial projects.	
MATT Engineering, Vadasery (Arduino Applications)	September 2023
• Programmed and interfaced Arduino with sensors for real-time projects. Built automation prototypes using embedded systems. Gained practical skills in troubleshooting and electronic circuit design.	

PROJECTS

- **Diabetes Prediction Using Machine Learning**
 - Built a machine learning model to predict diabetes using patient data.
 - Performed data preprocessing, train-test split, and model evaluation.
 - Compared Naive Bayes, KNN, and Random Forest algorithms.
 - Achieved the best results with Random Forest.
 - **Tech Stack:** Python, Pandas, NumPy, Scikit-learn, Matplotlib.
- **Mini Autonomous Car:** Developed a smart mini car with ESP32, integrating line tracking, obstacle avoidance, real-time video streaming, and wireless control.
- **Customer Churn Prediction** – Built a machine learning model to predict customer churn using Python, Pandas, and Keras.
- **AI Chatbot** – Developed an AI-powered chatbot using NLP techniques for automated user interaction.
- **Face Recognition System** : Developed a Face Recognition project using Python and Machine Learning for real-time face detection and identification.
- **AI-Based Radiation Monitoring System:** Built an AI + IoT radiation monitoring system using ESP32, sensors, and ANN for anomaly detection and alerts.
- **Employee Management System:** Developed a CRUD application to manage employee records with Create, Read, Update, and Delete operations..
- **Book My Show Clone:** Built a movie ticket booking application with real-time seat booking and user authentication.

CERTIFICATIONS

*Python Programming—E-Box *Data science and Artificial Intelligence—IIT INDORE

INTERPERSONAL SKILLS

- Analytical Thinking
- Problem Solving
- Teamwork and Leadership
- Communication and Time Management
- Self-Confidence

WORKSHOP

- 3D Printing and Robotics Workshop, Amrita College of Engineering and Technology (2024): Participated in a one-day workshop on 3D printing and robotics.
- Entrepreneurship Bootcamp, PSG Institute of Management (2025): Completed an entrepreneurship and leadership skills bootcamp.

ACHIEVEMENTS

- **Best Student Award**, B.E. I year (2022–2023), Electronics & Communication Engineering.
- **Best Student Award**, II B.E. (2023–2024), Electronics & Communication Engineering. Innovation
- **Showcase Recognition:** Won a prize in the Innovation Showcase (IETE Student Forum) for presenting an innovative idea on electronics in 2024.
